# Actively Cleansing & Protecting Wounds

## Actolind® w Solution / Gel

Cleansing, irrigation, moisturising, protection and care products for acute, chronic and infected wounds as well as 1st and 2nd degree burns.

### Effective
**Cleanses and protects the wound and the peri-wound**
- Removes contaminants, scabs, necrotic tissues and biofilm layers from wounds effectively by decreasing the surface tension
- Forms a thin protective film layer on the applied area
- Provides continuous moisturisation and infection protection
- Minimises the growth of microorganisms at the interface between the wound and the dressing

### Supportive
Efficient wound care thanks to the synergistic effect of poloxamer and polyhexanide (PHMB)

### Patient-friendly
**Convenient and painless dressing changes**
- Softens encrusted dressing materials that are dried and adhered to the wound
- Forms a barrier between the wound surface and the dressing
- Fills the space between the wound surface and the dressing
- Minimizes adhesion of dressings to the wound surface
- Allows atraumatic change of dressing materials

### Dermatologically tested
**Neither irritating nor painful**
- Mucous membrane compatible
- Does not cause sensitization

### Protective
**Provides antimicrobial cleansing and protection**
- Prevents the colonization of pathogens
- Prevents possible re-infections
- Prevents the formation of biofilms
- Highly effective against multi-resistant organisms (**MRSA, VRE**) and mycotic pathogens (*C. albicans*)

### Gentle
**High biocompatibility**
- Neither inhibits granulation nor epithelialization
- High tissue compatibility
- Suitable for long-term treatment
- Well tolerated by allergic and diabetic patients

### Healing
**Provides moisture and care**
- Keeps the wound surface clean and moist
- Enhances the effectiveness of the dressing
- Prevents the adhesion of microorganisms
- Accelerates the healing of wounds and burns

**Polyhexanide** + **Poloxamer**

## It accelerates the healing of wounds and burns

✓ Cleansing + ✓ Moisturising + ✓ Protection + ✓ Antimicrobial Effect
